Software developer

Despre mine

I have 2+ years of experience in IT as a Support Engineer. Proficient in testing, debugging and building new features for the software applications. Knowledgeable in Java 8, MySQL, Spring Framework, Git and HTML/CSS/JavaScript.

An open person able to effectively self-manage during independent projects, as well as collaborate in a team.

My Github account: https://github.com/Sergiu7777

On this course I've learned how to build CRUD web-apps using Spring Framework, Hibernate, Maven and Java 8.
